2015 Northwest Anthropological Conference
Program Changes and Corrections

CHANGES/CORRECTIONS:

Field Staples: A Look at the Subsistence Patterns of Archaeological Workers.
Breanne Taylor and Josh Moss; shown in the program as a paper; this is *poster #13 in the Thursday afternoon poster session.*

The Zooarchaeology of Bonneville Estates Rockshelter: 13,000 Years of Great Basin Hunting Strategies.
Bryan Hockett. Session 6, Exploring Archaeological Methods and Applications, *3:30 p.m. Thursday Afternoon* (listed in the program as starting 4:15 p.m.)

Round Table Discussion: Addressing the potential for deeply buried sites.
Brandy Rinck, Moderator. *Rescheduled for the Rogue Room, 1:00-3:00 p.m. Friday*

Assemblage Structure in the Yakima Uplands Foldbelt, Central, WA.
Allie Taylor, John Davis, and Steven Hackenberger; listed in the program as a paper; this is *poster #15 in the Thursday afternoon poster session.*

Major Toolstone Geography of the Pacific Northwest. Terry Ozbun
Session 13: Toolstone Geography of the Pacific Northwest, *Time change: paper begins at 8:45 instead of 8:30; Willamette Middle*

Heritage Tourism on a Personal Level. Jenny Dellert.
Session 14: Public Archaeology & Heritage Management, *Time/venue change to Willamette East, 11:30 a.m. Friday*

Session 26: Cultural Encounters, Past and Present. *Venue change from Columbia North to McKenzie North*

Session 27: Under the Bridge: Archaeology on the Tideflats of Seattle's Smith Cove. *Venue change from Columbia South to McKenzie South*

The Emergence of the Commercial Dive Fishery for Sea Cucumbers and Its Impact on Individuals, Communities and the Ecology. Daniel Monteith: *Time change to 10:15 a.m., Willamette East*

The Holocene Occurrence of Mammals in the Clearwater and Lower Snake River Regions of Idaho.
Jenifer Chadez: *Time change to 9:30 a.m., Willamette East*

Howard A. Hanson Dam Archaeological District (DT 184) Revealed through Data Recovery Excavations at Late-Archaic Hunting Camp, King County, Washington. Jason B. Cooper; Title/Abstract change: *Session 4: New Interpretations of Coast Salish Culture and Society. 10:30 a.m. Thursday, Columbia North*

Archaeological research over the last 30 years has documented a remarkable collection of prehistoric sites along the relic Green River channel found during low water behind Howard Hanson Dam in King County, Washington. In the area known historically as Eagle Gorge, Archaic archaeological sites dot a denuded reservoir landscape in proportions similar to the number of Douglas fir and western red cedar stumps that also cover the watershed's ancient terraces. Annual raising and lowering of the reservoir behind the dam adversely impacts the previously documented sites and also exposes previously unknown archaeological sites from time to time. Fieldwork in 2011 and 2014 focused on the data recovery excavations at six prehistoric sites, including site 45KI1083 which is a late prehistoric hunting camp with excellent faunal preservation. Coordination with the U.S. Army Corps of Engineers-Seattle District and Muckleshoot Indian Tribe under an existing Programmatic Agreement has directed archaeological research toward mitigating adverse impacts to cultural resources as a result of managing the Additional Water Supply Project at the dam.
CANCELLATIONS:

Paper withdrawn

Preservation of Sacred Sites and Sacred Places with Geo-Referencing Systems. Marsha F. Small
Session 6: Exploring Archaeological Methods and Applications, 1:30 p.m. Thursday, Willamette Middle

The Impermanence of the Digital: Temporality & Online Research Realities. Elizabeth Hagestedt
Session 6: Exploring Archaeological Methods and Applications, 3:30 Thursday p.m., Willamette Middle

Nephrite/Jade: The Pre-eminent Celt Stone of the Pacific Northwest. Jesse Morin
Session 13, Toolstone Geography of the Pacific Northwest, 8:45 a.m. Friday, Willamette Middle

Ezo: The Land Where People Live - An Overview of the Paleo and Historic Natural Environment of Hokkaido, Japan. Erin Gamble
Session 17, Community-Based Environmental Anthropology, 9:15 a.m. Friday, Columbia Middle

Multisensory Music. Kent Godfrey
Session 15: Anthropology of Contemporary Society, 11:15 a.m. Friday, Columbia South

Poster withdrawn

Analysis of Fatty Acids in Precontact Ceramics from Barbados, West Indies. Jillian Hendrix
Session A, Poster 2, Thursday morning

An Exploratory Analysis of Avian Remains from Cherry Point, 45WH1, Whatcom County, WA. Carl E. Sholin; Session A, Poster 7, Thursday morning

Multisensory Music. Kent Godfrey
Session B, Poster 13, Thursday afternoon

Ezo: An Environmental Reconstruction of Hokkaido, Japan. Erin Gamble
Session C, Poster 7, Friday morning

Adult Female Tibetan Macaque’s (Macaca thibetana) Response to her Infant’s Death. Sara Perdue, Lori K. Sheeran, Dong-po Xia, R. Steven Wagner, and Jin-Hua Li Session D, Poster 13, Friday afternoon

ACTIVITIES/MEETINGS

Panel Discussion: An Open Discussion Panel of Cultural Resource Topics for Students and Entering Professionals (sponsored by the Association for Washington Archaeology)
Emily Tabor and Lisa Catto (AWA Student Directors, Moderators) Rogue Friday 9:00-11:00

Are you interested in research and career opportunities in archaeology? Come to a panel discussion with representatives from state and tribal historic preservation offices, federal and state agencies, cultural resource management firms, and academia. Questions may be submitted online prior to the panel (http://bit.ly/1vk4bEf) or asked during the session. Examples of topics include advancing career work, interactions between panel groups, and what it takes to find work. Food/beverages provided. Panelists: Mary Rossi (Applied Preservation Technologies); Dennis Lewarch (Suquamish Tribe THPO); Michelle Hannum (Plateau Archaeological Investigations); Stephanie Neil (Squaxin Island Tribe THPO; US Forest Service); Todd Koetje (Western Washington University); Robert Kopperl (SWCA); Stephenie Kramer (Washington SHPO).
